LED Module Supply Agreement

Parties

This agreement is made on September 15, 2026 between Kestrel Works, Inc. ("Buyer") and Lumen Optics Co., Ltd., Shenzhen ("Supplier").

Supplier will manufacture and deliver the LED module described in Schedule A for use in the Buyer's Arc and Arc Mini desk lamps.

The term is two years from the date above and renews for one-year periods unless either party gives ninety days' notice.

Specification

Module LM-2240: 24 mid-power LEDs on a 40 mm aluminium-core board, tunable from 2200K to 4000K, CRI 95 minimum (R9 above 60), binned to a three-step MacAdam ellipse.

Supplier will provide LM-80 data and a certificate of conformance with each lot.

Any change to LED bin, phosphor, or board material requires thirty days' written notice and Buyer approval.

Pricing

Quantity per order	Unit price (USD)	Notes
5,000	$14.20	Minimum order quantity
10,000	$12.80	Requires 12-month forecast
25,000	$11.60	Requires 12-month forecast

Prices are ex-works Shenzhen and fixed for the first twelve months. Volume tiers apply per purchase order, not cumulatively.

Lead times and delivery

Standard lead time is ten weeks from purchase order to ex-works.

Buyer may place one expedite per quarter at a 12% premium with a six-week lead time.

Delivery is FOB Shenzhen. Title and risk pass to Buyer at loading.

Late delivery beyond fourteen days entitles Buyer to a 2% credit per week, capped at 10%.
